When Distress Calls the Red Cross Answers "Here!"

Now the Red Cross calls! The annual Christmas Roll Call of members will echo throughout the land the week of December 16th to 23d.

Membership in the Red Cross now is more than duty—it is an honored privilege, and an evidence of loyalty. When that Roll is called, your conscience, your sense of right and justice, your love of country and your devotion to the highest ideals of unselfish service all suggest that you answer "HERE!"

All you need is a heart and a dollar

These entitle you to membership for one year. When you wear your button, signifying that you are a member, you will not be asked to join again this year—it means that you have answered the Roll Call. Join—be a Christmas member—but just join once. Our soldiers and sailors look to the Red Cross for comforts. They have never been disappointed. The Red Cross looks to you for the moral support of your membership. Answer "HERE!" when the Roll is called.

EDITORIAL

Greetings for a Merry Christmas and a Happy and Prosperous New Year are extended to all.

MOONEY CASE. A Nation wide strike, for the purpose of influencing a new trial in the Mooney case, has been suggested.

Just how a strike of this kind would help the situation, and establish ultimate justice is difficult to see. The only effect the strike could have, would be a physical protest, which in no way could help Mooney.

In our judgment a more practical method would be for the forces of labor to create a fund, by the donation of an amount that would some where near represent what the strike would cost the individual in lost wages, thereby creating the machinery necessary to properly investigate the case, and defend Mooney, if the results of the investigation warranted a new trial, and we believe a new trial would result.

The commutation of sentence to life imprisonment has created a new element of doubt as to his innocence or guilt. The Governor of California, the same as the Trial Judge, must doubt his guilt, or he would not have commuted his sentence.

No case in years has aroused so much interest as the San Francisco Preparedness Day outrage, and the subsequent trial and conviction of Mooney and associates.

It seems very evident that perjured testimony and incompetent evidence were introduced and accepted at the trial, and to those who have followed the case, naturally the question arises in the unbiased mind, that if the evidence against Mooney was so conclusive, why was it necessary for the authorities to inject evidence of this character.

Organized Labor is as fully interested in seeing justice done as any other body of citizens, and if Mooney and associates are guilty, they should be punished accordingly. If on the other hand they are innocent,—they should be acquitted, and those responsible for their conviction, through the employment of improper methods, should be punished.

It is labor's duty to go about this matter in a sane, rational way, and if possible, establish the innocence or guilt in the premises, which labor more than any other force is interested in establishing, as efforts have been made by some capitalistic interest, to create the impression that the Preparedness Day and similar outrages are viewed with passive indifference by organized labor.

PROTECT YOUR JURISDICTION. Evidently the efforts put forth by the Electrical Workers to more thoroughly organize men of our calling are looked upon with envy by others and envy always has been productive of abortive attempts to profit by the efforts others put forth, or to tear down the structure built up, in the eyes of the envious, it becomes more attractive than their own.

Lately the engineers raised a great cry at the Pittsburgh meeting of the committee organizing the steel industry, because the Electrical Workers were organizing the electrical cranemen.

Electric cranes have come under the jurisdiction of the Electrical Workers since their introduction into industry. Some cranemen's locals

have been in affiliation for more than eighteen years. Mr. Engineer never worried himself about them or spent any time, money or labor to organize them. Now that they are becoming organized generally, by the Electrical Workers, he tries by underground methods to get in somewhere, and cries for control of them without apparent cost to himself. But it's a poor day for slackers in the labor movement and our locals will refuse to turn over Electrical Workers to him or others.

Where Mr. Engineer has been employed, he has done the work of any other craft at will in office buildings, hotels, stores and other places. He does the work of the electrician, plumber, carpenter and any other craft, so long as he is able to do so. But now when he sets up a cry to have us organize a class of men larger than the entire membership of his organization and turn them over to him, he will find that underground methods are not the ones that win. Our locals must take every step necessary to protect their jurisdiction, and hold the men rightfully belonging to them.

The question of jurisdiction over the cranemen and operators in ship-yards was before the last convention of the A. F. of L., forced there by the piracy indulged in by the Engineers, and has been referred to the Executive Council of the A. F. of L., and may come before the next convention.

Pending the disposition of it, Protect Your Jurisdiction by every means at hand.

POST WAR ADVISORS. The signing of the Armistice not only brought us the joy and happiness that peace prospects naturally bring, but also brought us an unusually large hatch from the incubator of "isms" and "izings". A study of this hatch does not bring much comfort to those that consider they have an understanding of American ideals, and fought or worked to preserve them. Neither does an examination of the many fanciful colored theories advocated appeal to American minds, as offering any practical ideas productive of benefits to the Nation or humanity. If there are any pacifist representatives, anti-war advocates, Pro-German sympathizers, political aspirants or philosophical idlers and undesirables that have not offered a panacea for all problems that confront or will confront civilization for the next century to come, then they must still be interned or serving a sentence under the Espionage Act.

It is evident there were many who fortunately for themselves and unfortunately for the public avoided a well deserved sentence, and are now offering their remedies for economical, industrial and political ills, not, however, without exacting the usual dime or dollar for their prescription.

According to some of the thoughts expressed, our whole fundamental theory of Government must be re-vamped. Everything connected with it from the flag down to the soil is off color, and requires an immediate application of advanced thought remedies. Some think only one color (red) should remain in the flag, and the Statue of Liberty be replaced by a likeness of a long-haired bewhiskered Bolsheviki—Some believe the 110,000,000,000 people living in this country stepped off on the wrong foot in the matter of handling immigrants, and a change in the system is necessary in order that Americanizing will be assured.

Again in the minds of some it would be rank degeneracy to retain control of the railroads.

Political opponents of President Wilson are sure he is much more needed here listening to their attacks on his administration of public affairs, than he is at the Peace Conference.

Thus on and on, one could enumerate the weak points found by the envious politician, the dreaming idler, the professional failure, the oily

togued orator and chronic calamity howler, in our body politic. However, the real American mind considers the white and blue colors along with the stars, quite a satisfactory blend with the red in the flag;—that the Statue of Liberty quite appropriately expresses our ideals to the foreigners who enter our New York gateway, and that no change is desirable.

The common every day American recalls that his ancestors, as well as the ancestors of the 110,000,000,000 fortunate enough to populate the United States were immigrants, and succeeded in building up a very decent country from the Hudson River to the Golden Gate, and became Americanized without trouble to any one, except the enemies of freedom. This same American personage thinks the President of the country quite well qualified to express and maintain American ideals at the Peace, or any other conference he may attend. Common American ideas on retaining control of the railroads perhaps do not coincide with Wall Streets, but still, the average American mind is not being guided by Wall Street thought, and the fact remains, that the calamity howlers will not make much impression on the laboring man, farmer or business man, and the real wealth producers will continue in their same thrifty course, confident in the feeling that no question will arise in the future too large for the American people to dispose of in a fair, equitable manner.

SEMI-ANNUAL DEATH BENEFIT ASSESS- MENTS.

We desire to call the attention of all Locals and members to the provisions of Article 12, Section 1, which relates to the Semi-Annual death benefit assessment.

Many locals feel that a member initiated the latter part of March or September should be exempted from the payment of January or July death assessment.

This opinion is entirely erroneous as the constitution clearly and specifically states that all members admitted between the first day of January and last day of March and first day of July and last day of September must pay the semi-annual death benefit assessment. New locals chartered during the same period must pay assessments upon all members.

That the war did not serve to broaden all the narrow economic minds is evidenced by Wm. H. Barr, president of the National Founders Association in an address to that association. Mr. Barr maintains that wages and conditions of employment should be reduced to a pre-war basis. In our opinion he does not voice the views of the great majority of employers who are beginning to realize that prosperity of the employee spells prosperity for employer, and that the purchase of labor by contract through collective bargaining is just as necessary as buying material by contract.

Mr. Barr seems to have the same mind concerning the relations of capital and labor as Haywood and other Bolsheviks.

DUE BUTTONS.

Local Unions using monthly due buttons will be required to pay for same at the rate of one and one-half cents (1½ cts.) after January 1st. This is due to increase of manufacturing cost.

Local Unions should also place their orders at least thirty days prior to desired delivery date in order that they may be assured that due buttons will reach them promptly.

CHANGE IN PRICE LIST OF SUP- PLIES.

We again call attention to the change in Price List of Supplies. Be sure to consult the list before remitting for same.

Editor:

A brand new Local of telephone men was born here on Nov. 18th. At last the telephone men woke up and organized themselves with the aid of Local 130 into a very prosperous and progressive Union. The bosses had offered them all kinds of inducements. I am told by some of them to stay out of Union Ranks and be loyal to the Company. Well any man can be a Union man and be loyal to his employers so long as their same employers give him a living scale of wages. Here's hoping our new Baby Local with Nos. 130 and 4 aid will grow into a big husky and that their path will be smooth. And better yet, there is a pretty good chance to get the Lady telephone operators to get busy and organize. I may also be able to report in my next letter that we have the power houses of the N. O. Ry. & St. Co. organized as the G. O. has a list of One hundred and twelve names of engineers, machinists, sub-station men, switchboard operators, oilers, firemen, and helpers who want to organize a Union of their own. Brother Frank Swor has been ordered to report here by the G. O. and I had a telegram from him today, Dec. 4, 1918, saying he would arrive in New Orleans on Saturday morning, Dec. 7th.

On and before July 1st these men had joined No. 194, the St. Carmens Union, so they are out of their jurisdiction altogether and really have no business in that Local. Now they are dissatisfied where they are and want to form a local of their own. Local 194 signed a two-year contract with the N. O. Rys. Co. on July 1, 1918. All power house and gas house men are included in the contract, but I am sure that contract is not binding on these men when the Street Carmens Union has no jurisdiction over them. When Brother Swor arrives he will be able to decide this question. Since my last letter the N. O. Rys. Co. has raised all of our pay which raise took effect on Nov. 1st. The foremen got a substantial increase; the linemen were increased from forty to sixty cents per hour; the lamp trimmers get forty-three cents per hour, and apprentices forty cents an hour; double time for all overtime.

Mr. D. D. Curran, president of the N. O. Rys. Co. also granted us back pay dating from Sept. 1st to Nov. 1st. By back pay I mean he gave us just what the increased pay amounted to, which was generally at the rate of two dollars and forty cents per day. Now the men who work 10½ hours per day get \$6.30. The men who work 9 hours get \$5.40 and the lamp trimmers get \$3.87 per day. We desire to thank Mr. D. D. Curran for the kindness in which he treated our committee, and also for the raise he gave us. This Local also desires to thank the committee who had the matter in charge and who succeeded by their efforts in getting us the new scale. If you Brothers of the different Locals only knew the handicaps and difficulties that No. 4 has had to contend with in all its years as a Local and the constant struggle it has had where only 77 men out of a possible thousand linemen have held our end up and fought against these great odds and are on top today yet, just think Brothers, of a city with nearly

900 linemen and other good timber not organized.

No. 130 has also had its own struggles, but thank God and a couple of her staunch members who stuck to the ship and would not let it go down. No. 130 is squarely on top today and can compare favorably with any local in the country, and they have officers who are always on the job. I agree with Brother Lippard No. 130 Press Secretary, as to what he says about Brothers coming here to work and on not finding conditions to suit their convenience start to roast the town and its Locals. Remember each and every member of this Brotherhood, when you are in Rome, do as Romans do. We home guards had to struggle and fight to make these same conditions and no Brother is forced to accept or work at them.

Too many times since I have been at the business have I heard the floating Brothers come into this man's town and actually beg for a job. Then after they would get work and make a stake (perhaps blow it in on Jno. Barleycorn) start to knock on Nos. 4 and 130 and the town and its natives in general, simply because our members would not dig down in their jeans and give them the wherewith to keep them in booze money when they would have jobs and would not work. I know these things to be facts. I want to say to all Brothers who are men that this is a white man's town and there are white men with red blood in their veins in it and stand ready and willing at all times to do or die for a just cause. The South is God's country, which any of you Brothers who have visited us and acted the part of men well know you were treated white by us, and also there was nothing too good for you. But we do not stand for no impositions. You are all as welcome as the flowers in May to the land of Dixie and also to the best we have to offer. But you must have a paid up card and abide by the conditions that we have struggled to make.

It ill becomes any person or persons to visit and accept the hospitalities of a town and then to leave it with a cherished ill-will and roast the life out of it. I can say there are very few men in our Brotherhood today of that ill as the majority of them whom I have met are gentlemen. We will meet all in the winter capital of America in September, 1919 with a smile and warmth of handshake that you wont forget in a hurry as your visit to us will leave nothing but years of pleasant memories. I regret exceedingly to report the death of our Brother Michael J. Joyce, who dropped dead from heart trouble on Nov. 16th. Mike as he was known to the boys was a good sober and industrious worker and a loyal Union man.

Wishing all the Brotherhood a merry, merry Xmas and a thrice happy New Year, I am,

Fraternally yours,

Fraternally yours,

A line from Local No. 21 of Philadelphia, as we are still on the map of the living and not amongst the dead as yet. I was made Press Secretary too late to memorize

a letter last month. That is why you didn't hear from me any sooner, but will write this one early enough for it to get into the publication office.

We have lost one of our oldest and longest Presidents that I can remember—Brother H. T. Blackador. He pulled out of town and we congratulated him with a rising vote of thanks and best wishes for success in his new position.

We have another old-timer as President at the present time—Bert Chambers. He is well known amongst the Brotherhood at large and here also.

We have also changed our meeting headquarters from the Parkway Building to the Bricklayers' Hall, at No. 707 North Broad Street, where we have a business office at the same address and the telephone number is Poplar 2990. Our Business Agent will answer anything in regard to signing up jobs or putting men on jobs where needed, or anything in regard to outside electrical work, as we are an outside Local. Bell Phone. Don't forget Poplar 2990.

We have closed a deal at the Hog Island shipyard in regard to retroactive pay, with Mr. Kennedy, Mr. Moore and Mr. Alken, dating from November 15, 1918. This is for the former employees of Hog Island. I mean by that linemen and helpers will receive back pay from January 15 to March 2, inclusive. Hoping the boys or Brothers in France will see this and will answer the same, as they want to make the pay roll up, to settle it all at one time. Hoping this will come to all the Brothers that worked down here at that time, and I further hope that it won't take them as long to send it in as it did to fight. We fought it from July 9 to November 15 without losing our heads or getting discouraged. We hope they will answer as soon as they see this letter, as this is no "bull." To say to get it and getting it are two different things.

We have had quite a few floating Brothers here during the war time jobs the last year and quite a few drafted into the service here. There have been quite a few places closed down since peace has been declared. We may have quite a few go over to the foreign countries to help construction and bring them back to normal again, if prices are right. If not, no linemen from here will go to Europe to work, as our jobs here are working on eight-hour bases, under protest at present. How long the protest is, no telling. We are protesting for one dollar (\$1.00) an hour, and double time for overtime, holidays, Saturday afternoons and Sundays, which I hope we get. If we had somebody on the Macy wage scale we should have a better chance, but we will try and get it anyway.

We are still holding the Philadelphia Electric on the unfair list here, which has been since July 18, 1917. The only thing they have is scabs and niggers doing the work, but a good sleet storm would cripple them badly this winter. Quite a few of their niggers have been caught stealing copper wire, but we haven't seen anything in the papers as yet. They wouldn't give us the satisfaction, because they have never caught a union man stealing anything from them, and I hope we will never have anyone in our Brotherhood at large. I hope that the Brothers will read this and mention it to some more of the Brothers, to keep all as far away from that company, as it is no good, until they make conditions to meet us. They had a piece in the Philadelphia paper for the need of money. It isn't money they need; it is men they need, and not money as much as men. They wanted to borrow it from the Government, but were refused, so now they are selling stocks to get it. When the Government won't lend you anything, how can men with any principle work for them? Nothing but a nigger or a scab would work for them anyway. So

that is the reputation I give the Philadelphia Electric Company at the present time and will until they come across with the conditions to suit the Brotherhood.

We had quite a few members on the sick list during the influenza here, but as God will have it, we are over that spell at present. It has taken quite a few of our Brothers during that time, as you will see in this issue of The Journal.

We have elected Brother Bert Chambers as Business Agent, as Brother Hale has left us, and we hope that he will be on the job for the interests of Local No. 21, for we sure need a busy man on the job, with a strike on and organizing the Telephone and Telegraph Companies and the Traction Company's men also and looking after those other jobs that are still working on Government work.

Will dead end here, with best wishes for a merry Christmas and a happy New Year.

H. Weber,
Press Secretary.

Editor:

Once again, and this time some news to the Brothers that are away. At the present time all those in Omaha who have no gas buggy are either walking or riding with some one else who has, for the reason that no street car has run for three days, and prospects that there will be none for some time, unless our dear friend, Mr. Wattles, ex-president of anything against organized labor in this village of ours, sees fit to recognize the demands of the 900 street car men who have left the service because the working conditions were intolerable.

The sympathies of most people are with the men, except those who read only Senator Hitchcock's scab paper, which pursues the usual plan of the muzzled press, only it is a little worse.

One more bit of news is the fact that the Supreme Court of the State upset the Moonlight injunction, an outcropping of Omaha's big labor fight of the last two years. Attorney General Reed got out an injunction against all organizations against organizing picketing, or even talking to the imported or native scabs, and to make it appear an even thing (the material yards had all closed down and would sell no building material) included in the injunction that they should open. The Supreme Court says that the district court erred in granting the injunction, and said it with a bit of vengeance, too, and in a way that will prevent the indiscriminate use of injunctions against labor organizations. It will also nullify the injunction against Local No. 22.

The meanest man in Omaha is the man who at this time stole Brother Vitic's car from in front of the Labor Temple, where it was resting after taking some of the boys to work.

It will soon be up to No. 22 to get a new Press Secretary, as the present one has had to resign as Recording Secretary and will soon have to take a traveler and deposit in Local No. 205, as I am engaged in railroad work at the Bluffs and am working nights. At this time I will put in a word for our railroad brothers and say that all labor organizations should use all efforts to influence the public to see that the Railroads, Telegraph and Telephone Companies stay in Uncle Sam's hands, and also make it clear that in case of the Telephone and Telegraph Companies, as it was in the beginning with the railroads, that the officers of these companies are the same as before they were taken over, and are doing all in their power to harass the Government and to create a sentiment against Government ownership.

In Council Bluffs the local officials of the Bell made a flat service charge of \$5.00

just to change the name in the 'phone book. And there are many other cases of this and other petty inconveniences on both sides of the river that shows that all of Mother Bell's slave drivers are not in accord with Uncle Sam.

One more thing that I want to bring before the Brothers is the deplorable condition that exists in some towns, where some progressive organizations are trying to help themselves and the labor movement at large by organizing building trades councils and to have some locals backed by their internationals to stay on the outside and then to sign with their masters an agreement that they will not join in any sympathetic strike. And all this for 50 cents a day, and here in Omaha these traitors of the labor movement seem to delight in working with rats and on all scab jobs. On the Athletic Club building all crafts came off, whether or not they belonged to the Council, except the two branches of this one craft.

On the desk before me is a letter from President Donlin of the B. T. C. Department, in which he says—and only too true—that the "voluntary feature of our labor movement prevails against any mandatory feature, consequently we can but remonstrate with the offenders, only to continue on and on." Conscription was thought to be out of place in this great country of ours, but it proved to be the best way to get results, and it is the opinion of many leaders of the progressive trades in Omaha that it could be well applied to the labor movement or at least to this feature of it. Whenever you find a Local that sells its birthright for a 50-cent a day mess of potage (that of sympathetic strike) they are only fattening themselves at the expense of all other organized labor and when if the others should be beaten down then it will be time for the fattened parasite.

There is one other point that is in our home that we should take care of, and it is one that has been up time and again, and that is a matter of a defense fund and also an organization fund, and it looks to me as if the I. B. E. W. is letting the golden opportunity slip by, as are some Locals which have low dues. Now, when so few of the Brothers are out of work and when wages are generally good is the time to build up a defense fund and to get every man in the electrical game into some or other branch of the I. B. I imagine if there were enough Organizers that there would have been a Local of the Phone Girls, and then they would have thought twice before they discharged the girls for marching in the Peace celebration.

Well, I must close for the present, and I hope this gets in on time. I am about two letters ahead of the game now and I suppose that in some of these Workers there will be lots of news from Local No. 22. Hoping that this will escape the blue pencil, as I did not mention the name of the offending Locals, I am

Fraternally yours,

Riley, Press Secretary.

LOCALS 23 AND 88A, ST. PAUL.

Editor:

Kindly insert the following in the next issue of The Worker and convey our thanks to the Locals that have responded to our call for financial aid:

From Local No. 234.....	\$ 5 00
From Local No. 47.....	15 00
From Local No. 231.....	10 00
From Local No. 135.....	5 00

Total to date.....\$35 00

Considering that the appeal was sent out just recently—the 2d of the month, to be exact—this early response is indeed very pleasing and encouraging to all the people. We were compelled to walk out on No-

vember 15, and after reaching an agreement the companies yesterday tried to place another one in effect, which necessitated the calling out of all the employees again, and matters are now more difficult than they were a week ago. As soon as we reach an understanding we will give you a full and complete version of the situation.

With best wishes to all, I am fraternally yours,

Editor:

The press secretary got a cramp in his arm and was delayed in getting a line in the last Worker. Bro. Broach, our International Organizer, is still with us and as usual is going at top speed to try to accomplish better conditions, both working and wage, in this locality. The proposition of more money was put up to the telephone companies early in October and November but as usual they were so poor that it was impossible for them to grant an increase so no November 11th there was a strike vote taken and out of several hundred members there were only one dozen against suspending work. There is no doubt whatever, that if the war had ended in October this move would not have been delayed until November 11th.

After being out from November 15th until December 5th, an agreement was reached with the telephone company whereby an increase of \$1.25 per day average for the men and 50 cents per day average for the Operators was granted. All employees were to be taken back without discrimination.

But, if, and also a few other things, the telephone companies showed their fairness

as usual and busted their agreement all to pieces, when the employees reported for work the next morning doors were slammed in their faces and they were told they had no more right to be there than when they were on strike, then they gave out the statement that they had orders from Mr. Burleson not to employ any of the strikers until further notice. As a result of this we are all out yet and intend to stay until the battle is won. Broach said he would stick here until the Devil gets cold unless an agreement is reached whereby we can all go to work on honorable terms and look the next man in the face while we are working.

The latest bulletin is to the effect that Mr. Burleson has given orders to the telephone companies that they might reinstate all employees that went out for fear of the consequences also those who were sick. Now, there is a doubt that Mr. Burleson issued such orders as he to big a man not too broadminded, the possibilities are great that Mr. Burleson knows nothing of the orders issued.

There is no intention of committing or allowing to be committed any destruction of government property here regardless of the claim of the telephone companies that some of the strikers have beaten up one or two of the men that continued on the job, and others they say caused a disturbance and some damage to the Walnut Exchange. Boy O boy but these telephone companies have got to do more double-crossing than they have already done before this crowd is through with them, and don't you think for a minute that Broach can't hold his own (as the saying goes) with these would-be Kaisers.

Fraternally yours,

Skybo, P. S.

L. U. NO. 68, DENVER, COLO.

Editor:

With no apologies to offer for neglecting the grand opportunity to air one's opinions and convictions regarding local and other affairs, at the same time it is by request of our worthy Vice-President that I send this article. The year being on its last legs and getting shorter every 24 hours by one day, we will soon hear the long drawn out sigh of the horns and whistles, announcing the finish of a nerve racking although a prosperous year, as far as industrial conditions were concerned. It was nerve racking and oftentimes heart rending to millions throughout the world, but thanks be the worst is over and our brave lads will be returned to us once again in marching order. May we welcome them the best we know how (a suggestion) by pinning a small silk flag on the returned one's star on the service flag. Same star with the attached flag to be cut out and presented to the returned soldier members at a series of receptions to be given in their honor with a printed memoriam, leaving space for the star, flag and seal of the organization and suitable for framing, and let us see that they receive their full quota in all things. For those who have gone to the great Beyond and will not return with the marching boys, let us place a gold star instead, and a wreath instead of the banquet.

As time unravels things it seems to create more suffering for some of us, seeming to attack the most robust and wipe them out like our late brother Oscar Rohlf, age 24, height 6 ft., 3 inches, a perfect man, an I. B. E. W. at all times. Little did we know on the big day Monday, Nov. 11, that we would stand and bow our heads in silent meditation for him at our next meeting. He being one of our members attacked by that silent destroyer, the "Flu."

We have several more reported being sick in the last week, the contractors having lost three members in the last two weeks from this plague. The U. S. Recuperation camp at Aurora, which is a suburb of Denver, is progressing and nearly completed.

The electrical work being done by Denver contractors, superintended by a member of 68, Fred Karnes, ably assisted by our Financial Secretary Samuel Hawkins, whose duties as material clerk, we know is well handled. It would be to the interest of some large firms to take notice, as material costs money whether used or not. The work was handled by a small force in comparison to some other camps. It is up to all expectations, wisemen being most all from Local 68 and a few members of Local 113, Colorado Springs, who are enjoying the benefit derived by the Trio Local agreement, said agreement having been made between Denver Local No. 68, Colorado Springs Local No. 113 and Pueblo Local No. 12 and seems to eliminate all difficulties on the working permit question, which oftentimes arises in some localities.

The Trio Local agreement seems to stand on its own pins without much propping up, more so than our Troy machine made agreement, which Local No. 68 entered into last spring, it requiring all sorts of props and foundations to enable its steam roller methods to gain ground.

Our committee was unable to give it all the support the association Barons required, namely—The Independent contractors, tooth and nail, work and everything movable. But the little joker was there, placed in the agreement by the wise ones at Utica, N. Y., to dodge the anti-Sherman Trust law and it acted as a boom-crang. It leaves the Local free to work for all contractors, who are fair to the

I. B. E. W. It only reads that we can not work for the contractors who have dropped out or been expelled from the association (saying nothing about contractors who have never joined the association.)

But the steam roller found another ditch to fill besides the ditch No. 1 they were going to fill up with the Independent contractors ditch No. 2, which is our Industrial commission, who say we must give 30 days' notice to contractors or contractor and file notice with them to that effect, also before we can make any demand our Building Trades Council wants 90 days notice and then Mr. Supreme and District Court Judge says we cannot discriminate in restraint of trade, and injunction costs money at \$1.00 per word and up, whether you give or receive them. Even with all these small drawbacks we got the increase and enjoyed it, and Mr. Independent is still going along minding his own business with the good wishes of all true I. B. E. W. members and he is ready to come across with a small increase and no strings attached.

So as time passes it is our duty to each other to try the best we know how to acquaint ourselves with the words Friendship, Harmony and International Brotherhood and not work for our own personal motives, but try and bolster up your brother craftsmen. If we were all to follow this method it would be far better than the game of "do others before they do you." Organizer Brother Von Cleaf, who is now in Denver taking a fall out of Mother Bell, he already has a half nelson on her and in his quiet and diplomatic way he is sure to score a fall. He is taking the she bull not by the horns but inserting the ring in her nose in a systematic and professional way and without any of the "I told you so" the Tel. workers will have an organization perfected on principles, which he well knows how to perfect. His motto is on the same line as yours truly. If you have a difference, get together in committee and settle it and keep on getting together until some fine settlement is reached. As I have found by experience that by continual contact of the committees we get to know and study each member and gain their friendship and have heart to heart talks on the side which finally consummates in satisfactory results. factory results.

So let us have a Merry Christmas and make the coming a Happy New Year.

I remain

It is with sincere regret that we report the passing from this life of Brother Sidney L. Stuart. He was stricken with pneumonia November 18 and passed out November 23.

Brother Stuart joined the Brotherhood at Bremerton, Wash., March 10, 1908 (No. 574), and had been continuously in good standing. He was an able, conscientious worker, and at all times a staunch and true union man, seeking ever to uphold the best traditions of the Brotherhood.

Brother Stuart represented No. 73 at the Atlanta Convention, where his fearless stand for right and common justice made him many warm friends, to whom the news of his death will come as a personal bereavement.

He was a Mason and the funeral services were conducted by No. 24, A. F. and A. M. No. 73 feels his loss keenly and his memory will long be cherished by his many friends and co-workers.

Working conditions in Spokane are only fair. Not very much in sight for the near

future, so far as can be seen at present.

The commuting of Mooney's death sentence to life imprisonment is taken by Spokane unionists as a preliminary step to what union labor has steadily asked—a fair and impartial trial. We await the turn of events with interest and hope that impartial justice will ultimately prevail.

As Local No. 74 hasn't had an article in The Journal, will endeavor to let them hear from us. We have had our election, which resulted as follows:

President—E. Arnold, 808 Chandler St.
Recording Secretary—C. P. Burcham, 703 N. Robinson St.

Business Agent—Bert Gerrard, R. R. No. 8, Danville.

Press Secretary—J. D. King, Villa Grove.
Secretary-Treasurer—Harry Sager, 20 S. Vermilion St.

We are hoping the boys will be back soon, so we will have a full house again, which we haven't had for some time, and we are sorry we didn't get to electrocute the kaiser.

Everything here in the C. & E. I. R. R. is going along nicely at the present time. All signal men, linemen and their respective helpers are lined up, also the engineers and dynamo tenders in our power plants.

We trust that the majority of our membership will assist Brother Gerrard in his work as Business Agent, although we have a few that will make him all the trouble they possibly can, as they have done heretofore, but we are glad to say we only have a very few, and hope they will see the benefits of organized labor one of these days, but it seems they are a long time waking up to the fact.

Well, 75 missed getting a copy in the Worker last month, so here goes for a few lines. What does organization mean to you? Organization was formed for the express purpose of protecting your individual rights as a skilled laborer to assist you to achieve your ambition to rise in your chosen field of activity. Is there any other power or influence that safeguards your interests and places them in equal balance with Capital? You pay your local and international dues each week or month as required. But your duty as a member of organized Labor does not stop there, your organization needs your moral assistance as well.

A new wage petition all written up, was presented to both Telephone Cos. here, City Lighting Dept., Grand Rapids Street R. R. Co., Fire Dept., Signal Service, and at present we are waiting until General Organizer Ray Cleary gets here so he can wait on these companies to see what they have to say for themselves. It would be a wise thing to do to bring some of these companies down a peg or two from their high thrones. Localities right here in the state of Michigan are receiving far less than a decent living wage. Occurrences like these under capitalistic are very common.

So, Brothers, stick it out, as better days will be coming later on. Things here in Grand Rapids are rather quiet just now. The Peric acid plant is closed for good by the looks of the paper, and if some manufacturing company comes and takes it up, there will be some work for the Brothers then, not before. But before coming to

Grand Rapids we advise you to communicate with the Financial Secretary, so you will not be disappointed. Well, here's wishing you all a Merry Xmas and Happy New Year.

As I have not written a letter to the Journal for the last couple of months I will try and get a few lines in for the last of the year. Work is fair at present, but cannot say for how long it will continue, as all of the overtime jobs have been cut down and have got back to the what we have looked for so long the 8-hour days, and now some of the boys have got money mad with the rush that has run on for the last year and still want to work over time, but mine I would prefer the 8 hours with a fair day's pay and have a few hours to myself.

The boys who went out on a strike last June have not got back yet, that is the most of them, and are looking for different concerns, but I guess they will not get back on their old job very soon from the way things look now.

The man that everybody thought was a fair and square man as an arbitrator, and who gave a decision against us and caused the strike, came back and asked that we take the club from over the Edison Co. and allow the F. T. Ley Co. to go to work, and the Edison Co. gave their promise that they would take back the men as they need them. At the start they done well. The first week they took back eight men and from then on they have most forgotten about what they said. The only thing was if they had of held off and not listened to any Bull that was being spread at that time every single man would have been back on his old job, for they had the Edison on the run as bad as the boys over there had the Hun when he quit.

Bro. Fennell was called in on the case by the I. O., who had received a letter from the F. T. Ley Co. asking for the matter to be straightened out so they could get back on the Edison system, as the Edison Company were getting pretty well jammed up with work and were talking of getting some one else to do it. And Bro. Fennell, the Organizer for this district, did his best, but the boys are still off of the job and are feeling pretty sore about it, and no man with any sense can blame them, for now F. T. Ley Co. has got the work pretty well caught up and the Edison don't need men, and going around laughing at what a bunch of marks, and have as good as said they would of had to give in if Mr. Endicott had not got in his good word along with the I. O. saying that the strike was not legal and that they would order the men back. But I notice none of them show up to try and settle the thing the way it should of been.

The Edison Co. are building a high line from Boston to connect with Connecticut River Power lines at Fayville. The New England Power Co. are doing the work to Dedham and the F. T. Ley Co. from Dedham to Boston, which will be started soon, and I hear that the New England power is going to pay \$5 per day, but I am not sure of the hours.

Well boys, if you could get Labor to turn out on labor day the way they did on Nov. 11, when they got the word that the armistice was signed you would have some parade. Boston went mad for two days, and there were parades coming and going all of the time, and for the mass of people that were on the streets and everything included, there was very little trouble. Everybody was overjoyed with the news and seemed to govern themselves accordingly. The first day there was no head or

tail to the parades and no one seemed to care whose parade they were in as long as they were in one. In the down town district it was almost impossible to get along the street on account of so many parades, and every place was closed up to get out and have a part of the fun. If they had not closed up the bars and hotel it is hard to say what would have happened, for before they did shut down, they were using the mahogany for speech platforms instead of arm rests.

In the next letter to the Journal the Press Secretary will be able to tell you who the officers for the coming year will be and from the looks of the first night of it there is going to be some hard fighting for some of the jobs, also for the Press Secretary.

Fraternally yours,
H. W. Shivers,

L. U. NO. 112, LOUISVILLE, KY.

Let us all get busy and get all men who are in the Electrical work in our Brotherhood, as the time is coming when the boss will try and lower wages if we don't get together. Take heed you Brother Bell men all over this U. S. A. And another thing Brothers we should have more organizers in the field and at once. If the entire membership would be assessed one dollar for two months the T. O. could put at least 15 or 20 more men in the field and I know that the Brotherhood would get good results at this time.

Don't holler about giving two dollars in sixty days, as I believe you would get two hundred dollars in your pocket for the same within one year. I am glad to say that Local No. 112 will amount to something in the near future. We are getting new members right along, and I hope it won't be long before the boys will get the wages that they should receive. And Brothers we now have a sister Local No. 90 A., which will be some local, they having over 300 members and I think they will go to 1000 by the time Brother Goble gets finished. You see old Louisville may some time be a good place to come to. Brothers do not come this way without first writing Business Agent as I think we are going to have trouble with Tel. Companies and also Camp Knox job. I will close for this time wishing all a merry Christmas and prosperous New Year.

Fraternally yours,
J. F. Ulmer, B. A.

Since the last writing our boys wrote letters to all employers of electrical workers for a voluntary increase and incidentally stirred up a "stink" with the local Lighting Company. Understand, Brothers, that it was no demand, but just a piece of business correspondence that required an answer, as a stamped envelope was inclosed. The company seemed to look at the matter in a different light. Through the wrangle the foreman resigned and after a few days the company came across with a raise to 50 cents per hour, with the usual overtime, etc., as in the past, and things are running smooth again.

As for the inside men, they are getting more than the scale of 50 cents, depending on the demand of some of the contractors. The majority of our members are veterans of Spanish influenza, and are sorry to announce that we lost a true and loyal Brother, Arthur W. Johnson, who was acting Recording Secretary at the time of his death.

At our next meeting we will have election of officers and incidentally a little smoker as an inducement for good material for officials for the ensuing year.

Nothing else to write, except that this has been an ideal fall for work and weather. Yours fraternally,

E. H. Jaekel, P. S.

Having so many things on my mind last issue I neglected letting you hear from us. We are still above board, but one of our big jobs fell through. Most all of our men are working at present and the few who are not, will be soon. Since our big drive for a larger membership we have done wonders on the roll call. We have now close to thirty, calling present at each meeting, and thanks to Brother Davis as he is largely responsible for this good work. The other brothers are all good union progressive men but me, and as soon as my foot heals up I will see if I can't be of some use to boosting our membership.

We all hope we may have at least fifty members by spring and I would like to be well soon so as to get my share of new members. There are a great number of "attic rats" here who are not use to good conditions or a fair pay that they could possibly live as union men, so they will come to us when they see wedges coming in on their own bread and butter, because we are beginning to show them the stone age of contractor slavery is a thing of the past. Those few who do not come to us will not die. No siree. They will just naturally go back to the farm and brood.

Some of these dubs' minds are so small and narrow that they imagine they get paid for doing electrical work, while they are not. They receive their 35 or 40 cents an hour for allowing the bosses to tell them how to do their work, while some of these know how to do it, but haven't backbone enough to say. And if they did pick up courage and talk like a man they would naturally die for fear of losing their jobs; and they would lose them because they have no protection as individual workers. These men will come to us sooner or later and when they do they will not act like a whipped dog any more. So hoping that this is in time for publication, I am

As I missed the last issue of the Worker will endeavor to get a line in the November issue. There is not much of interest going on here. The boys are getting up a new agreement with the Oklahoma Gas and Electric Co. The linemen employed by the Oklahoma Ry. Co. successfully entered into an agreement with that company providing for an 8-hour day 62½ cents per hour two ways on the company with time and one-half and double time for overtime; double time for Sundays and holidays.

I suppose now as the war is over things will pick up some over the country. There is plenty of work here for what members we have. There is no one idle at present.

We mourn the loss of Brother J. N. Lee, who was killed by an automobile turning over with him while performing his duty as are lamp inspector. We were very fortunate during the influenza epidemic, only losing two members.

Well Mr. Editor if this proves worth while and you find space in the worker for it let it go. Fraternally yours,

Editor:

It is time for the Press Secretary to get their minutes in a letter to the Worker, so

here goes. Brothers, we are moving along at about the same pace we were before the war, and with less men. We are not doing any new work at all at present, merely maintaining the old lines. We have quite a little trolley repair work to do. Mason and Hanger can use a few linemen and also a few inside men. Brother Bense has left the city and at present is working at Pairs Island, S. C. The men at Mason and Hangers walked off the job some three weeks back. They asked for 80 cents per hour and could not get it. Since then we have been informed by wire from the I. O. that all Government shipyards were paying 80 cents per hour, and we have tried to get the rating from Washington for the Charleston Port Terminal, and were informed by the I. B. E. W. representatives that they were working on the question of wages for all jobs otherwise than shipyards, and that the present rating was the highest until such time as they could get board together in Washington, and come to some agreement. So some of the brothers are back on the job until they can hear from Washington.

I wish to say that Local No. 188 of the I. B. E. W. of Charleston, S. C. sends to all Locals and to every officer in the Brotherhood a happy Xmas and New Year, and one wish for every member on New Year's day and that is happiness, prosperity and strength. Fraternally,

Herewith a few lines to let you know we are still "up and coming," although not as yet quite recovered from the "Peace Celebration."

News of the Armistice reached this Western Wilderness shortly after 2:00 a. m., Monday, November 11th, and immediately small bands of Indians came forth from their wigwams and began a war dance, which gathered momentum as the day progressed until finally it was decided to bring the event to a close by burying "Wild Bill" so low down that it would take two centuries for him to get back to the Hot Place in an airship equipped with our Liberty Motors.

Believe me, Local 205 was represented, and while the majority of our tribe have returned, it is reported some of the members have crossed "No Mans' Land" and are headed for the Ikhine singing, "When we have painted all of Humland a deep Red, White and Blue, then we'll come back to 205 Local Union."

Storage Batteries were fully charged at the outset, and delivered 10 per cent above their rated capacity during the entire period of bombardment, although at different intervals during the day, it was necessary to call a halt to pick up Shorts. There were also a great number of "Boosters" in the Line.

Following the "Peace Demonstration" it was found that Local 205 had taken such an active part, that the "Medicine Man" deemed it advisable that the whole tribe from Chief Ikon on down, be treated with the vibrator to establish normal condition of the nerves. There are still occasional outbreaks, but nothing of a serious nature. If anything develops, will let you know in the next letter. Fraternally,

Editor:

Brother Tow Martin, who is Asst. P. S. for L. U. 226, is supposed to be responsible for a monthly appearance, but for some

reason fails to function. I feel that this is a time for Local Unions to get closer together. We are organizing the Bell employees in this section, but we feel it would be useless to go much further unless the Brothers in Kansas City, Wichita, Hutchinson and other Kansas towns, as well as in Oklahoma, do likewise. The time is right and the fruit is all ready for the harvest. Can't the Brothers in these towns take enough time off from their own business to get these people started? A time like this won't occur again in a hundred years. The Topeka Bell men are fully organized, with the exception of one undesirable, and they (L. U. 841) are doing wonderful work, not only in their own ranks, but also with the telephone operators, which they have enabled to become nearly 100 per cent organized. They have a grand chance to get somewhere, provided they can keep together and keep out discord.

But they won't be satisfied till they see other towns over the State get our religion and are willing to co-operate with them in any way possible. Why not all get together and boost? It is a regrettable fact that our electrical workers have been so short-sighted as to be niggardly with the I. O. as regards P. C., but such is the case. We can't expect results without money. If we are afraid the I. O. is crooked, it would be better to get a new I. O. than to stop for want of funds. But I, for one, would prefer to pay bigger P. C., even at the risk of Brother Ford robbing the till, than to let this work go undone. A dollar now in organization work is worth a thousand a year from now and may be the difference between success and failure, as far as the Bell is concerned.

L. U. 511, Topeka R. R. Electrical Workers, report a 100 per cent organization, but seem to be rather bashful about appearing in print.

All organization and other work is suffering by the "flu" at the present time, which is great for our enemies. L. U. 226 has signed another contractor, which leaves only two rats outside.

Fraternally yours,

L. U. NO. 330, LAWTON, OKLA.

Editor:

L. U. No. 330 of our city is at the present time very low in numbers. We have lost the greater part of our membership owing to the fact that the Government has cancelled all orders for construction on the Fort Sill Reservation. That left quite a few men out of employment and they had to go elsewhere.

The balance that were still employed by the Government to finish up the work already under construction left the job on account of a reduction of wages. They have been holding out for 87½ cents.

The former pay was ten hours' work at 75 and eleven hours' pay. We hope that the Government will see fit to grant our increase. In town it is 60 cents and work very slow. Frenchy.

L. U. NO. 558, SHEFFIELD, ALA.

Editor:

On November the 18th, the boys pulled the pin on all Government work here. After being out for ten days we got the following agreement:

That we be allowed better hospital service so that we will not have to take our brothers to private hospitals for medical attention, and assurance in case of death not to be buried in unknown graves, as in the past.

That the rotten conditions of the restaurants and mess halls be adjusted to

suit the present set scale of wages paid, and be kept in a sanitary condition.

That the men will not have to stand in line in the rain and mud to get their time cards and pay.

That the Bunk house be furnished with heat to be comfortable, and be kept in a sanitary condition for the protection of our health.

That we be allowed free transportation from the tri-cities to and from camp, in heated cars.

That we shall have a closed shop job.

The increase in scale was assured us but would have to be taken through the regular channel of red tape, but we would get some answer not later than the 15th of December.

At the present time we are only making 44 hours or \$33.00 per week. The Air Nitrates Corporation is offering the boys on maintenance work a flat salary of \$45 per week for eight hours seven days per week. There are very few of our men falling for this line of stuff, for they know as soon as the construction work is over this salary will be cut probably to \$15 or \$20 per week, but if we can hold them on a straight hourly basis it will mean more money in the future.

The above named corporation has broken their promise to the closed shop clause in our agreement.

All crafts are very much dissatisfied with every thing in general. Some have struck the job and others just waiting to pull it when things get right.

Hoping everything turns out for the best, I am,

Fraternally yours,

Press Secretary.

L. U. NO. 600, ERIE, PA.

Editor:

Having been elected Press Secretary at the last meeting of L. U. No. 600, Erie, Pa., I will attempt to put in a good word for the Electrical Workers. I will say that the time is ripe and the griddle is hot in Erie and will be red hot in another thirty days. We have been busy for the last sixty days and we are not going to stop until the city of Erie will be one big and grand surprise throughout the country, on hearing of the good work that has been and is being done by the men of this Local. I started the ball rolling at the great General Electric Company and the rest helped to keep up the fight, and we have at present around the 100 mark of members at the General Electric Company. Although we are a young Local, I think we deserve credit for having the punch. We have at present about 600 members and our motto is, "Watch Us Grow." I don't mean to say that the General Electric Company is the only shop we are after, but our aim is to get the big fellow solid and then watch the little fellows.

We have had a great run of the "flu" here and that has held us back considerable and we had a ban on for five weeks to contend with, but the fight will be hotter than ever to the finish.

Now, a word to all Press Secretaries. Get busy. Let us know what you are doing as one at the present of 60 pages. So with 1,000 pages of interest to the Brothers as one at the present of 160 pages. So do your bit, as it pays to advertise, and I beg you again to work with us and watch us grow. I remain,

Fraternally,

Fred A. Parsons,

Press Secretary, L. U. No. 600.

L. U. NO. 609, SPOKANE, WASH.

Editor:

Local No. 609 has received the award of the War Labor Board in the case of the Intermountain Power Company, which is building the high line from Long Lake to

Taunton to furnish juice for the Milwaukee electrification.

Failing to agree upon either wages or conditions, it was mutually agreed, by the company and the Local, to submit the differences to the board for adjustment. The usual hearing was waived, both parties submitting their case by brief direct to the board. The final brief was sent in October 10, and on December 2 the decision was received here.

We are given \$6.00 per day of eight hours, with an additional half hour to travel when necessary. Board is set at \$1.00 per day and all meals are to be served in camp, thus cutting out the practice of carrying the noon-time lunch to the men on the job. We were refused the straight eight-hour day and also our demand that board be paid only when the men work. This establishes the first \$6.00 scale in this district. Back pay is granted to September 26, and time and a half for overtime and double time for Sundays and holidays.

The Telephone employees are anxiously awaiting the result of negotiations to secure higher wages from the Telephone Company. The \$4.75 they now receive not being able to withstand the assaults of present prices. The Company recently made a great to-do over some raises the operators have received, leaving the impression with the public and the operators that the raises are due to the generosity of the Company and its consideration for the welfare of the girls, when, as a matter of fact, the raises are due to orders of the State Public Welfare Commission. That body having found upon investigation that the Company was not paying the operators enough to subsist on, and ordered a minimum of from \$10.50 to \$13.20 per week. The Company is still paying practically the least the law allows.

Speaking of the telephone situation, the fair play guarantees of the Government Board, headed by Felix Frankfurter, have proven ropes of sand. Whether the attitude of those in authority has been animated by a desire to "soak" the boys and girls for their having gone out on strike last fall or not, it is a fact that so far as results go guarantees of justice have proven a huge farce. A year has gone by and not a single case in this district has been decided in favor of the employees. When an employee quits the company that ends his case, according to the dictum of the Government mediator, even when his quitting was practically forced by the company.

Nor is our own Organization blameless for this state of affairs. Much of our difficulty in securing redress is because of the interminable delays resulting from the unwieldy nature of the "machinery of our Organization." One case in point was submitted early in July, and for the last six weeks we have tried in vain to get even a report of the progress made, but letters and telegrams remain unanswered.

We are still negotiating with the Inland Railway, and hope now that the war is over, to get action soon. All crafts working for this company are acting in harmony through the "Inland Council," composed of delegates from each craft affected, and are making a united demand for the Government scale as established in Supplement 4. The Department of Labor is sending in Conciliator G. Y. Harry, who will try to bring about a settlement.

Fraternally yours,
D. P. Reid,
Financial Secretary.

L. U. NO. 652, HAMMOND, IND.

Editor:

We are doing business at the same old stand, or rather two stands, Hammond and Gary, Ind.

We have outgrown our babyhood, brothers, as you will understand when we in-

form you we are going "over the top" at a not very distant date, for we are nearing the two thousand mark. We are stepping right along, so get in line and bring the prodigal sons, as we need them all. Tell them the glad tidings at this, the brightest and most cheerful time of the year, and get them to come into the fold. We have a big task in front of us, and we need every one of them with us.

The influenza epidemic has caused much real sorrow and suffering within the ranks of our brotherhood, but am glad to say it is on the wane and our state board of health promises us the ban will possibly be lifted by the middle of this month.

We will then get down to real business and show our kind and benevolent friends (?) the Steel Trust, who are engaging all the halls in the community for every night in the weeks, that we still have our labor temples in both cities; and as we are outgrowing these auditoriums, will possibly in the near future build our own temple, so keep your eye on us, brothers, and let us not forget our brothers across the sea, as this gladsome Yuletide who have been doing "their all" and are again showing their smiling faces among us.

Right here, let me say it is up to us to show our brotherly love for these boys, who have been putting the wholesale "murdering machine" out of business and don't forget they are going to be different men, every mother's son, and are going to make real fighters at home, not with firearms, but for right, justice and humanity.

Get in line now and show them how glad we are that they are again safe with us, and that we have been doing our bit while they were away.

Am glad to see Brother A. H. Woolbridge, of Local 600, at Erie, Penn., and his co-workers are alive and going up hill. Keep it up brothers, the hill is a little steep, but the view is fine when we reach the top.

Fraternally yours,
F. M.,
Press Secretary.

The forces of democracy have at last administered a crushing defeat to the legions of autocracy and the latter have in effect unconditionally surrendered. It is a glorious victory for humanity, and the American people are justly proud of the part which our army and navy had in accomplishing the final victory. We are at the present moment in the midst of great rejoicing because the world has been made safe for democracy. This is as it should be. But while we are yet rejoicing, organized labor should stop a moment and consider the fact that although the German kaiser has been defeated and his power has been destroyed, we have here in our own country many industrial kaisers, whose power for mischief and harm is just as great as was the Prussian kaiser's. The world has been made safe for democracy, for political democracy, but Labor has yet to achieve industrial and social democracy. It is the mission of the labor movement to bring this about. During the last year and a half this movement on the part of labor has won its greatest triumphs.

One of the things that the American Federation of Labor has been advocating for years is Government ownership of railroads, telephones and telegraph lines. At the present time we have as a war measure Government control and operation of these lines, and this control has proven a blessing to the country and to the workers on these properties. Therefore, it is Labor's duty to see that these public utilities are never returned to their original owners. Government control and operation should not be relaxed or relinquished for a mo-

ment. On the contrary, it should be strengthened and should finally lead to complete Government ownership. Therefore, Organized Labor should energetically agitate this matter. All Locals should send letters, petitions and resolutions to their Representatives and Congressmen at Washington and demand of them that they vote against returning the railroads, telephones and telegraph lines to the owners; also, for them to frame legislation looking to complete Government ownership of same.

Wishing you and the entire Brotherhood a Merry Christmas and a Happy New Year, I remain,

Editor:

This is my first attempt and being a new local, please don't expect much news, but will do better as we grow older. We have 21 members all working for a good cause and building air castles from solid foundation, as we are almost 100 per cent strong.

Our members are all back to work after being hit heavily with the influenza and causing us to miss a couple of meetings, but all are back to business once more. We are young, but hope to grow to a big local, as this is a strong union town, having five shipyards, which of course takes lots of men of all trades.

We are proud to say our little city is putting out quite a number of wooden ships to help get the Kaiser, and now as we have peace for which we all are very thankful and the whole town of Orange turned out to celebrate.

Work has been plentiful here, but is slacking up now as things are not in such a rush as before peace.

Wishing all locals and our officers success, I remain

Yours truly,

Acting Press Secretary.

Our Local, which is less than a year old, is progressing wisely, we are steadily gaining in membership, and the interest is growing rapidly. Finances are in good condition.

We have had a late bereavement in losing two of our members of influenza, Thos. A. Eberhardt and Albert E. Masters. We feel that we have sustained a loss in the death of the two brothers.

Some of our brothers have entered government service, some gone to the coal mines, on account of high wages paid, some for patriotic purposes.

Our attendance is not what it should be, owing to the fact that several of the boys live and work in nearby towns, although there are a few "slackers" in the city, but we are striving to overcome that deficiency.

We have a worthy president in the chair, in the person of Harvey Childs, and he is doing all in his power for the success of the Local and he has the co-operation of all other officers.

As to the work in our jurisdiction, we have a "closed shop" with the M. V. Traction Co., with a nice increase of wages, both in hours and salary. We have two agreements pending, one being before the War Board.

Wages have increased in factories, with the electricians, but made through bonuses, and very unsatisfactory to the brothers.

The most important work in our community is in the coal production, the government requiring vast amounts, to maintain the fuel supply. The output is from 1,500 to 3,000 cars daily from this region (some coal) more coal in one day, than parts of the west, ever see in their life.

Our natural gas seems to be growing weaker, and plans are being made for substitutes, in factories and plants. Gas producers are being built, and experimenting with thousands of dollars invested. The Phosphorous Plant being erected by the

on the M. V. T. Power House is progressing and employing a number of electricians (all members of the local).

Owing to the ravages of influenza, I am late in getting a letter to The Journal since being elected to press secretary.

Wishing success to all local unions, I am, Fraternally yours,

E. Boyd Cutlip, P. S.

Now for some real live news from a new corner. On the night of September 22, 1918, men from the Cumberland Telephone and Telegraph Companies held a get-together meeting and decided to organize a Telephone Local here and made arrangements with Local Union No. 130, to get a Charter for us. The Charter was received Nov. 3rd, but owing to the "Flu" were unable to hold a meeting and organize. After several weeks of watchful waiting, on Monday night of Nov. 18, called a meeting of the men, who assembled at Local Union 130. Hall, and with the help and courtesy of Brother W. J. Autrey D. J. Byrne and H. M. Mullen of Local Union 130, were organized with 48 charter members, one of the largest number of men brought into any local organized in the "Crescent City."

Brother Autrey made a very impressive talk to the men for the good of the union, its relation to company and its employees.

On several occasions the men from the Cumberland have tried to organize here, but it always "leaked" out and the officers of the company always managed to knock it in the head, but this time we have made a success of it and we are here to stay and have taken in twelve new members, bringing our membership to sixty members.

We have taken in with the exception of a few, all foremen, head linemen, linemen, cablemen, cable helpers and groundmen, and are working on the inside men and repair men, and hope to have them in by the first of the year.

The following officers were elected:

L. Galle, president.
G. Selle, vice-president.
E. Peroyea, recording secretary.
E. Burke, financial secretary.
M. E. Baldwin, press secretary.
L. Bussler, treasurer.
A. S. McHenry, 1st inspector.
L. Kamalade, 2nd inspector.
M. Kroger, foreman.
M. P. Heery, 1st trustee.
J. Freear, 2nd trustee.
A. Vetter, 3rd trustee.
M. E. Baldwin, A. Vetter, E. Burke, J. Robertson, A. Tomaswitch, executive board.

Much praise is to be given the brothers of Local Union 130, and also Brothers L. Bossler and M. Kroger of Local 823, who worked the organizing of Local Union 823 a success.

Here is to Local 823, may it never fail in its purpose to improve the working conditions of those associated with it, and always prove faithful and true to the I. B. E. W.

Fraternally yours,

M. E. Baldwin,

Press Secretary.

Local No. 841 of Topeka, Kansas, sends you and all I. B. E. W.'s its first greetings and best wishes. This is a new local consisting of 99 per cent of the telephone plant employees of Topeka with a good per cent of the Topeka Edison Co. and City Electric Light Co. employees.

We have organized the Topeka Telephone Switchboard Operators with 99 per cent of them joining the first two nights that meetings were held. They have a

great organization which means so much to every laboring man, The A. F. of L. We are well organized and have had several meetings since we received our charter. The "Flu" ban has broken into our work considerably and caused several meetings to be postponed. We were ably assisted in our organization work by Brother Woodhull of Local 226.

membership of over 100 enthusiastic girls. The vim and pep displayed by them shows that their Union is a live one and has come to stay.

Our officers are all awake and a loyal lot of men. There is no doubt but what success will be our lot when we all give them our staunch support.

We all hope the "flu" ban will be raised so that we may hold our regular meetings and get down to work on some of the vital problems that confront all laboring men—the wage question.

With best wishes for the success of the I. B. E. W. I remain,

Yours fraternally, H. N. Lower,

GOVERNMENT MANAGEMENT.

When the railroads of this country were taken under Federal control, they were suffering from the effects of a long period of various sorts of adversity. The measure of their recovery under government management has now been put into figures by Mr. McAdoo, the Director General.

Taking the cases of the railroads of class 1—which are roads having an operating income of more than a million dollars a year—he finds that the number of tons of revenue freight carried has increased 8.9 per cent.

The number of freight cars in service has increased 5.1 per cent.

The number of tons hauled per train has increased 6.9 per cent.

The average car load has been increased 14.4 per cent.

Taking Philadelphia and Pittsburg as experimental points, he finds that the tonnage there delivered has increased 9 per cent and the number of cars used has decreased 7 per cent. The number of tons per car has increased 18 per cent. This increase, he says "if it were general throughout the country would be equivalent to the addition of 432,000 cars to the equipment of the country's railroads."

We are all united and solid for that

Under Federal control the number of railroad officials drawing salaries of \$5000 a year or over has been reduced by 400 and \$4,615,000 a year has been saved. The expenses of the law department have been reduced \$1,500,00 a year. By the consolidation of ticket offices, and the abandonment of competition, it is estimated that \$23,566,633 will be saved. And of this amount, \$7,000,000 will be saved on advertising bills.

At the same time wages have been raised; the eight hour day has been granted; women are receiving the same pay as men for the same sort of work; and negroes are no longer being discriminated against in their wages and conditions of employment.

Freight routes have been shortened. Cars and locomotives are being standardized. A universal mileage book, good on all roads, is being adopted. By the consolidation of terminals efficiency has been increased and one cause of great inconvenience to travellers has been removed.

It remains true, however, that the first aim of the railroad administration is to move the men and material needed by the Government war program. To this, everything else is subordinated. The savings in expenses, the improvement in the conditions of labor, and the simplification of the service for the travelling public are all matters of secondary importance. The first aim is to help win the war, and the improvement in the health of the roads is being devoted primarily to the task.

THE SOLDIER'S MAIL.

The mail service for our army abroad has now been taken over by the army. It is handling a million letters a day that are received in France from this country, and about 300,000 letters a day that are mailed in France for soldiers in France. It has warehouse for sorting mail at French ports. It has railway mail clerks on some 2000 miles of French railroads. It has a central Post-office at Tours, permanent post offices at various points, mobile post offices right up to the firing lines, and mail orderlies attached to each company of troops.

In the past, when the mail service for the army was under civil control, great delays were caused in the delivery of mail by the necessary secrecy concerning troop movements. Now, under military control, all movements of the mobile post offices are telegraphed in code to the distributing post offices and the letters follow the soldiers as they march. All the hospitals notify the central post office of the identity of wounded soldiers received or transferred. The central post office works with the central Record Division of the Adjutant General's office there every soldier in the army is card-indexed, and 150 men are there constantly employed searching out addresses. A system has been devised by which delivery may be

quickened to "replacement units" who have been scattered among widely separated troops. And various means have been found for overcoming delays due to lack of shipping facilities or congestion of mail at crowded posts.

It still remains true that mail for some 50,000 soldiers in France is delayed because the letters are inadequately addressed. In the future all such letters will be stopped at New York and returned to their senders. It is estimated that 300,000 letters a month have been delayed in the past because the men were in "replacement units." This "floater's mail" is now being handled expeditiously. The delay due to censorship is not great and it is being reduced.

The army authorities are aware that nothing sustains the morale of a soldier like letters from home. The mobile post offices now keep up with the troops; the mail is received with the rations at the kitchen; and the whole reorganized postal service is devoted to providing that the doughboy's letters shall reach him as promptly and regularly as his meals.

GOVERNMENT INSURANCE ADJUSTMENTS.

The War Department authorizes the following statement:

Dependents and beneficiaries of officers and men, who have claims under the War Risk Insurance Act, do not need outside assistance in collecting claims of allowances, allotments, compensation, or insurance. The Bureau of War Risk Insurance of the Treasury Department arranges all such matters and settles all claims without charge. Outside agents who impose upon claimants are subject to severe punishment.

Attention is called to the fact that some outside agents are still endeavoring to assist in the collection of such claims illegally, and that their assistance is not necessary. With every announcement of a death from the War Department goes the statement that the employment of legal aid in collecting insurance is not necessary. Through an arrangement made by the Treasury Department, such legal advice as may be felt necessary may be secured through the co-operation of the Special Committee for War Service of the American Bar Association, through the local legal advisory boards of each draft district.

The War Risk Insurance Act provides that the payment of an attorney or legal advisor employed in the preparation of execution of the papers necessary, shall not exceed \$3.00 in a single case. No claim agents or attorneys are recognized by the War Risk Insurance Bureau of the Treasury Department except in the event of a disagreement as to a claim under the contract for insurance between the Bu-

reau and an individual beneficiary, in which case a fee not to exceed five per cent of the amount recovered may be paid to the agent by the beneficiary out of the payments made to the beneficiary by the Bureau, but at a rate not to exceed one-tenth of each payment until paid in full.

The War Risk Insurance Act also provides that any person who directly or indirectly solicits a fee in excess of the amount specified is held guilty of a misdemeanor and for each offense will be punished by a fine not to exceed \$500.00 or imprisonment at hard labor for not more than two years, or both.

The War Department is co-operating with the Treasury Department to protect the beneficiaries of officers and men who have died or been killed, against the activities of certain claim agents who seek to defraud the wives, mothers, and dependents of those heroes who have died in the defense of democracy, and seeks the co-operation of every American citizen in the work of making known the facts of the case.

THE NATIONAL AGREEMENT.

By John A. Cole,
Vice-Pres. Lord Electric Company.

(a) In response to Mr. Comstock's, invitation to submit a paper on labor, it is my pleasure to present the following:

(b) Instead of attempting any academic discussion of this very interesting topic, I am submitting some recommendations for definite, practical action, which I have every reason to believe will be beneficial to the industry.

(c) Co-operation is the spirit of the day and the advantages of co-operating with organized labor have been clearly and intelligently pointed out in Mr. Lord's book, "Ethics of Contracting and the Stabilizing of Profits", which a large number of those interested in the electrical industry I know have read.

It is not necessary to expatiate on the advantages of co-operating with organized labor, as results have spoken for themselves whenever co-operation has been tried. There is no question which can arise between employers and employee which cannot be successfully settled at the conference table by the application of common sense and honest intentions. Another way of expressing this idea is that successful co-operation must come from the heart, and if both parties really wish to co-operate the result is always assured.

We must remember that men are human—a fact that applies equally well to employers as to employees—and consequently we must recognize that both in perfect good faith often make mistakes. The way to correct these errors is to meet and discuss situations as they arise in an open-minded, constructive

spirit. Almost all troubles in the past have arisen through lack of co-operation and mutual understanding, because employers discussed their difficulties, only among themselves, and employees discussed their grievances likewise, instead of threshing out these differences together.

(d) As a result of considerable study and consultation with men thoroughly conversant with economic questions, I have come to the conclusion that the most practical and satisfactory way to bring about sincere co-operation in the electrical industry would be to have the Conference Club lend its support and encouragement to a national agreement, entered into with the International Brotherhood of Electrical Workers. How long it will take to accomplish this, if it can be accomplished at all, is impossible for me to say; but I am sure that if we can convince that organization that our club is sincere and desires such an agreement for the general benefit of the industry, that there would be little opposition, if any, to such an agreement on the part of the electrical workers.

(e) There are several industries that now work under a national agreement, and as far as I am able to ascertain such agreements have given general satisfaction and have eliminated unnecessary stoppage of work, as they provide a method of settling all differences without resorting to the strike or lockout. It is superfluous for me to attempt to go into the details of such an agreement, which necessarily would have to be decided in a conference where both sides were equally represented, and drawn up to fit our specific problems. A permanent joint committee comprised of three members of the Conference Club and three members of the International Brotherhood of Electrical Workers should be formed whose first duty should be to block out a set of fundamental principles that would form the basis of the national agreement. At this joint conference, any obstacles can be overcome if both sides meet them in a straight-forward, candid way. Then, after reaching such an agreement, the function of this permanent committee would be to settle disputes and differences as they arise. I do not believe, however, that arbitration or even disputes would be frequent if the agreement were based on broad co-operative principles.

(f) Although I shall not attempt to outline what the national agreement should contain, it should cover a method of arbitrating any disputes that arise that cannot be otherwise settled. It is acknowledged by all students of economic questions that the only practical way known today to maintain harmony

and co-operation between employers and employees is through the trade agreement, and where it has been entered into in good faith, it has proven beneficial to both parties directly interested, and also to the general public, whose interest should also at all times be considered.

There are other suggestions I might make as to just what points a national agreement should cover, but I think it much more to the point here merely to initiate the means of creating the joint national committee, and after it is formed, allow it to work out the necessary details and later submit them for approval and adoption by both organizations. It is decidedly difficult to arrive at satisfactory and constructive conclusions quickly if the representatives of two bodies of men come together who are unfamiliar with one another's principles and methods of doing business, as is usually the case, or if each side is not entirely convinced of the honesty or purpose of the other. In other words, true co-operation implies a friendly and understanding acquaintance, each side of the other, in order to facilitate the exchange of ideas and their working out. With this end in view, I think the Conference Club, which I feel like referring to as the thinking element of the electrical industry, should have in its membership representatives of organized labor. I feel sure that such an association would be mutually beneficial in many ways, and it would be particularly helpful in maintaining a close and harmonious relationship between employer and employee in a broad national sense. It would go a long way toward creating the necessary confidence between both sides, as all business transacted and questions discussed would be known to the employee, which would in itself convince organized labor of the sincerity of purpose of our club. No association of capital or labor should be afraid to allow the other party to know the nature of the business transacted at its meetings. All associations should be organized on lawful lines, and no business should be transacted in violation of the law or to the detriment of the general public. The principle of having a union representative at business meetings has been tried out locally, and the results have been most gratifying as a means of smoothing out difficulties and enabling business to be conducted in a rational, friendly manner.

Every contractor in our country today who is awake to the best interests of his business, realizes that organized labor is here to stay and must be dealt with as a business proposition, and there is nothing but trouble in store for the

man who thinks he can conduct his business profitably and successfully and remain antagonistic to organized labor.

It would be very easy to elaborate on this idea of the national policy and the advantages accruing therefrom, but, as stated before, at this time I think it sufficient only to sketch out the objects to be attained; so, if it is proper, Mr. Chairman, I should like to have it moved and seconded that a committee be appointed by the Conference Club to confer with a committee of the International Brotherhood of Electrical Workers with a view of adopting a national policy that would be mutually satisfactory to both sides and of advantage to the electrical industry and the general public.

MEMBERS OF THE ELECTRICIANS' UNIONS.

Gentlemen:

Good will is the most valuable asset of any manufacturer.

Keeping favorably known to the consumer is good will.

Prior to the war the fact that "Mephisto" Auger Bits are made by union men and carry your official stamp has been called to your attention through the secretaries of your various locals and in the pages of the "Journal of Electrical Workers and Operators."

During the process of war heavy demands were made on us by the government for tools and through the enlistment of many of our men. We have strained every effort to take care of your wants during these strenuous times and now that peace has been declared we ask your cooperation, so that the standards set may be maintained and that you may always be able to purchase an auger bit bearing the union label.

This letter goes to your secretary with the request that it be read at your next two regular meetings and made a part of your records.

The writing of this letter, gentlemen, its being read at your meetings and filed in your records is not enough. We have reached a stage in development where your cooperation means success for everyone concerned.

Will you union men throughout these United States cooperate with the group of union men making "Mephisto" Auger Bits by demanding this tool—not only because it carries your own mark, but because it will do better and quicker work than any other bit on the market?

Yours respectfully,

THE W. A. IVES MFG. CO.,
C. J. Benham, President.

The Misener Rotary Metal Saw

Manufactured under Patents Pending by Misener & Irving Mfg. Co., Inc., Successors to M. S. Specialties, Ltd., Syracuse, N. Y.

Brothers:—Have you seen or used the Misener Rotary Hack Saw yet? If not you are still doing this work in the same old way. Show this to your "BOSS." Let him know you are progressive enough to cooperate with him and show him. Insist on him getting one of the labor savers to put in your "Kit," and see how quick he will do it as they are guaranteed to save 75% of the time

it now takes to cut those holes in your Panels and for setting outlet boxes in wood Plastered and Tile partitions. Order from your jobber or direct from us.

By the adoption of the Oscillating shank, it is possible to use a "wobbly" chuck (one that is sprung or bent) and still get 100% efficiency.

Center rotary cuts pipe sizes ¾", 1", 1¼", 1½".

Outer rotary is quickly and securely fastened by an interlocking arrangement and cuts pipe sizes 2", 2½", 3", 3½", 4". Each Misener Tool is furnished with a complete set of saws ½" deep.

Let's Can
Him!

Every Dog Has His Day—
“BIG ELEC” Had Two,
he'd had more, but cash canned him.
He's a good dog now—he's dead—but
watch out nobody's collected his life
insurance, he may be around yet. Some-
body heard a gentle whining for an order,
everything was alive except the “Grr”oul.
Below you see next to his last dis“appearance.”
